#### [ABOUT NABIP TX PAC](#)

The National Association of Business Insurance Professionals - Texas recognized more than a decade ago the need to become more involved in "politics" and formed NABIP TX PAC to support candidates and members of the Texas Legislature who have philosophies that reflect common sense and an overall understanding of the dynamics of health insurance along with recognizing how NABIP TX PAC is working to bring more Texans more affordable health insurance plans.

NABIP-TX and its political arm pride themselves in adhering strictly to a legislative program that focuses solely on getting the greatest number of Texans insured with comprehensive health insurance at the lowest possible cost. Accordingly, NABIP TX and its political activity unit have maintained a strict policy of non partisanship, understanding that no one political party or person has all the magic answers and that the interest of every citizen of Texas needs to be at the top of the priority list by the Legislature.

NABIP TX PAC pleased to support members of the Legislature and candidates who have common sense and an understanding of the many complex, moving parts that exist in the way health care is provided and how it is paid for.

NABIP PAC is the political action committee of the National Association of Benefits and Insurance Professionals (NABIP). It is the expression of our First Amendment rights to free speech and association guaranteed under the Constitution. Such political expression has become far more than a useful option for professionals in a heavily regulated business like the health insurance industry. It has become a necessity.

In the insurance business as in many other industries, some individuals seem to consistently be top producers. Not only are they top producers, they strive for excellence in their field and provide impeccable service to their clients. The top-notch way they do business means that their clients are happy, and that there are fewer service problems for you.

A top producer in the insurance industry is like a center of excellence in the medical arena. Their expertise in their field results in their ability to produce a significantly greater amount of business yet do so in a cost-effective manner. Their outcomes are better than those of other producers because of their dedication to excellence and the volume of business they produce.

At NABIP, we have a program designed to reward our members who are outstanding producers. That program is the Leading Producers Roundtable. LPRT qualifiers receive a number of free or discounted educational offerings and other services from us – after all they are the best of the best and we depend on their knowledge and dedication to their industry to help our own organization be the best.

Earning the Registered Employee Benefits Consultant® (REBC®) designation elevates your credibility as a professional. The field of employee benefits continues to evolve rapidly. A year does not go by without new government regulations, new or modified coverages, and new techniques for controlling benefit costs. To best serve their clients, professionals need to have a current understanding of the provisions, advantages, and limitations associated with each type of benefit or program as a method for meeting economic security. The designation program analyzes group benefits with respect to the ACA environment, contract provisions, marketing, underwriting, rate making, plan design, cost containment, and alternative funding methods. The largest portion of this program is devoted to group medical expense plans that are a major concern to employers, as well as to employees. The remainder of course requirements include electives on topics serving various markets based on a broker's client needs.
